SUBJECT INDEX, VOLUME 80

Acetylcholinesterase activity, thyroid function and, 1069
ACTH, and adrenal RNA synthesis, 872
  maintenance of pregnancy by, 829
  plasma, hemorrhage and concentration of, 741
  puromycin effect on insulin release induced by, 656
  renin effect on adrenocortical sensitivity to, 703
  secretion of, feedback control of, 345
    inhibition of, 889
    from pituitary grafts, 962
  stability in plasma, 599
  synthesis and release of, 719
Actinomycin effects on cartilage sulfation, 999
Adenohypophysis, evaluation of local blood flow of, 583
ADH sensitivity of normal and diabetes insipidus rats, 1168
Adipose tissue, hexose metabolism in, 45
Adrenal, function of, in cockerels, 1013
  secretion of, and tranylcypromine, 510
Adrenal cortex and water exchange, 835
Adrenal glands, in development of fetal thymus, 979
  of mice, steroidogenesis by, 576
Adrenocortical function, control of, 69
Adrenocortical secretion, effect of *extracorporeal* circulation and deep hypothermia on, 1174
Aldosterone, effects on water and electrolyte excretion, 1185
  lack of effect of, on potassium influx into rat erythrocytes, 375
  production of, influence of dietary sodium restriction on, 221
  secretion of, in magnesium-deficient rats, 969
Amines, vasoactive, participation in TSH action, 689
Amino acid(s), and insulin transport in *vivo*, 29
  release of, 288
Androgen(s), effect of, on LH biosynthesis, 409
  inhibition of mammary gland differentiation by, 329
  neonatal treatment with, and adrenal cortical response to stress, 1177
  neural localization for activation of male sex behavior by, 754
  production of, by rat, 38
Androstenedione, in blood of rat, 38
  effects of, on early pregnancy, 1152
Angiotensin II, renin effect on adrenocortical sensitivity to, 703
Anniversary, the fiftieth (editorial), 1
Antithyroid antiserum, thyroxine in, 1097
Antithyroid drugs, thyroid rebound after discontinuation of, 52
Aspartate transcarbamylase in pregnancy, 505

Blastocyst, LH-induced, implantation of, 172
Blood flow, hypophysial, 583
  TSH, thyroid serotonin and, 689
Bone resorption, thyrocalcitonin inhibition of, 61, 539
Brain, and delayed pseudopregnancy, 155
  thresholds of, and progestogens, 857

Calcium binding by liver mitochondria, 89
Carbon tetrachloride, chronic thyroiditis in Buffalo rats with cirrhosis induced by, 361
  effect of phentolamine on gonadal inhibition induced by, 983
Cell age and binding of ^{131}I-L-T_3, 65
Cholinesterase activity, thyroid function and, 1069
Chromatin, uterine, effect of 17β-estradiol on template capacity of, 536
Circulation, extracorporeal, effects on adrenocortical secretion, 1174
Cirrhosis, carbon tetrachloride-induced, chronic thyroiditis in Buffalo rats with, 361
CNS, blockade of GH release by drugs acting on, 109
Collagen, quantitative variations in, in prepubertal testes, 1163
  and thyroid hormones, 1051
Collagenolysis, parathyroid-induced, 815
Corpora lutea, dependency of, on estrogen, 938
Corticosterone, adrenal and plasma, during postnatal development, 910
  fluorometric assay of, 181
  plasma, circadian rhythm of, 926
Corticosterone-4-^{14}C conversion to 18-hydroxycorticosterone by fasciculata-reticularis of beef adrenal, 214
Cortisol, altered metabolism of DNA as early response to, 297
  excretion patterns of, effect of lethal X-irradiation on, 947
  hydroxylation of, genetic aspects of, 663
    phenobarbital and, 351
  inhibition of estrogenic responses by, 423
  and plasma amino nitrogen, 561
  release of amino acids from rat thymus after, 288
  tritiated derivatives of, cellular and subcellular distribution of, in rat liver, 774
Cortisone, enzyme depression by, 847
CRF, response to, 679
Cycloleucine, estrogen effect on uptake of, by rat uterus, 357

Death, pituitary TSH after, 302
Decidualization, induction of, in nidation, 1032
Dehydration, the neurohypophysis and, 278
Dehydroisoandrosterone-3-sulfate, 16α-hydroxylation of, 177
Diabetes insipidus, hereditary, antidiuretic responses to vasopressin, oxytocin and nicotine of rats with, 207
    hypothalamic, antidiuretic hormone bio-assay in rats with, 211
  rats with, sensitivity to ADH of, 1168
DNA, altered metabolism of, in response to cortisol, 297
Drugs and GH release, 109
Ductus deferens, glycogen in, 141

Editorial: The Fiftieth Anniversary, 1
Electrophoresis, isolation of internally labeled rat prolactin by, 324
Endocrine Society, The, first forty years (1917–1957), 5
Enovid effects on fetus and newborn rats, 447
Enzyme, cortisone depression of, 847
Epinephrine, enzymatic synthesis of, 825
D,L-Epinephrine, thyroid hormones and, 808
EPS of pituitary gland, fish responses to, 1090
Erythrocytes, potassium influx into, lack of aldosterone effect on, 375
Erythropoietin, estradiol valerate effect on, 430
Estradiol, and anterior hypothalamus, 567
  radioactive, metabolism of, 893
  17β-, effect on template capacity of uterine chromatin, 536
  phenobarbital effect on, 135
  -6,7-^{3}H, uptake of, factors affecting, 1133
Estradiol benzoate and lipid metabolism, 263
Estradiol valerate effect on erythropoietin, 430
Estrogen(s), action of, relation to histamine release in nidation, 1028
  antagonist of, action on uterus, 748
  corpora lutea dependency on, 938
  effect on cycloleucine-^{14}C and putrescine-^{3}H uptake by rat uterus, 357
  in feminized dog with neoplasia, 272
  metabolism of, in rat adipose tissue, 1160
  neonatal treatment with, and adrenal cortical response to stress, 1177
  proestrous, in nidation, 1038
  regulation of uterine metabolism by, 453
Estrogenic responses, cortisol inhibition of, 423
Estrone, radioactive, metabolism of, 893
Estrous cycle, uterine metabolism in, 714
α-Ethyltryptamine, effect of drugs related to, on ACTH secretion, 889
Exercise, effect of, on adrenal cortical secretion, 1148
Exophthalmos, experimental, acid mucopolysaccharide alterations in, 931

Fiftieth Anniversary, The, 1
Fish responses to EPS, 1090
Food, adrenal cortex and water exchange during deprivation of , 835
FSH, changes in, after PMS, 82
  pituitary, in the hamster, 851
    response to, 1006
  species differences in, 1180
FSH-RF, assay for, 313

GH, biosynthesis of prolactin and, 111
  bovine, peptidase activity in preparations of, 782
  effects of, on hexose metabolism in adipose tissue, 45
  release of, drugs and, 109
    and norepinephrine depletors, 471
  secretion of, stimulation by median eminence extracts, 205
    "stress" and, in rhesus monkey, 163
  stimulation of protein synthesis in liver mitochondria by, 772
Glucocorticoids, enzymatic synthesis of epinephrine by, 825
Gluconeogenesis, acute effects of hydrocortisone on, 1062
Glucose, insulin-dependent, epinephrine antagonism of uptake of, 788
Glycine-^{3}H, autoradiographic localization of incorporation of, 768
Glycogen in ductus deferens *in vitro*, 141
Glycogenesis, liver, 707
Goldthioglucose, thyroid activity in mice with hypothalamic lesions induced by, 387
Gonadotropin(s), chicken and mammalian, cross-reactivity of, 1182
  pituitary, in the hamster, 851
  pregnant mare serum, release of, 699
  recovery of added, following extraction by tannic acid, 378
  regulation of, role of midbrain-hypothalamic afferents in, 365
GRF in plasma, 77
GTH after hypothalamic deafferentation, 608

Hamster, LtH complex in, 118
Hemorrhage and plasma ACTH concentration, 741
Hexose metabolism in adipose tissue, 45
Histamine release relation to estrogen in nidation, 1028
Homogenates, adrenal, kinetics of hydroxylation by, 663
Hormone(s), mammotropic, and proteinuria, 305
  secretion of, by a pituitary tumor, hypothalamic action on, 131
  steroid, effect in vitamin-D depleted and parathyroidectomized rats, 89
Hydrocortisone, acute effects of, on gluconeogenesis, 1062
17-Hydroxycorticosteroid secretion, effect of exercise on, 1148
18-Hydroxycorticosterone conversion from corticosterone-4-^{14}C by fasciculata-reticularis of beef adrenal, 214
16α-Hydroxydehydroisoandrosterone-3-sulfate, 177
20α-Hydroxypregn-4-en-3-one effect on mating behavior, 381
Hypercalcemia of malignancy, effect of thyroparathyroidectomy in, 404
Hyperproteinemia, mammotropic hormone and, 305
Hypophysectomy and testicular lipids, 231
Hypophysis, factors affecting uptake of estradiol-6,7-^{3}H by, 1133
Hypothalamus, anterior, estradiol and, 567
  and ectopic pituitaries, 725
  factors affecting uptake of estradiol-6,7-^{3}H by, 1133
  GTH after deafferentation of, 608
  medial basal, TSH secretion after interruption of neural afferents to, 1075
Hypothalamus-pituitary, suckling effects on, 603
Hypothermia, deep, effects on adrenocortical secretion, 1174
Hypothyroidism, intestinal transport in, 623

^{131}I, inhibition of thyroidal uptake of, 417
^{131}I-L-T_3 binding, effect of cell age on, 65
Immunology, pituitary hormone, 435

Insulin, and amino acid transport *in vivo*, 29
effects of, on hexose metabolism in adipose tissue, 45
pancreatic, new method for *in vitro* measurement of secretion of, 99
release of, puromycin potentiation of ACTH-induced, 656
secretion of, effect of adrenergic and cholinergic agents on, 975
effects of stimulation of vagus nerve on, 530
Intestinal transport in hypothyroidism, 623
Iodide kinetics in incubated thyroid lobes, 1020

Kidney mitochondria, effect of parathyroid extract on nicotinamide adenine dinucleotide cofactor levels in, 542

Lactation, induction of, in pregnant rats, 1043
LATS, early effects of, 957
failure of, to stimulate thyroid function in the chick, 369
LDH, pituitary, sex difference in, 483
LH, biosynthesis of, effects of androgens on, 409
blastocyst implantation initiated by, 172
changes in, after PMS, 82
luteal regression following anti-ovine, 1127
pituitary, in the hamster, 851
purification of human postmenopausal urinary, 319
secretion of, 2α-OH and, 901
LH-RF, highly purified, lack of prolactin-release inhibiting activity in, 972
Lipids, testicular, hypophysectomy and, 231
Liver, extracts of, in inhibition of thyroidal uptake of ^{131}I, 417
isolated rat, penicillin and, 247
LRF, induction of ovulation by, 515
LtH complex in the hamster, 118
Luteolysis as affected by uterine transplantation in Syrian hamster, 477

Magnesium, aldosterone secretion in rats deficient in, 969
Malignancy, hypercalcemia of, 404
Mammary gland differentiation, androgen inhibition of, 329
steroid structural requirements for, 1139
Mating behavior, effect of 20α-hydroxypregn-4-en-3-one on, 381
Median eminence extracts, stimulation of GH secretion by, 205
Mestranol combined with norethynodrel, effects on fetus and newborn rats, 447
Metabolism, lipid, estradiol benzoate and, 263
uterine, in estrous cycle, 714
Methylcholanthrene and thyroxine metabolism, 896
Midbrain in control of gonadotropin secretion, 365
Milk ejection, effect of stimuli on, 840
Mitochondria, liver, calcium binding by, 89
Monkey, rhesus, "stress" and GH secretion in, 163
MSH secretion, hypothalamic inhibition of, 399
Mucopolysaccharide, acid, alterations in experimental exophthalmos of, 931

Neoplasia, estrogens in feminized dog with, 272
Neurohypophysis and dehydration, 278
Nicotine, antidiuretic responses of rats with hereditary diabetes insipidus to, 207
Nidation, delayed, maintained by dose of depot 6α-methyl-17-acetoxyprogesterone, 218
induction of decidualization in, 1032
proestrous estrogen in, 1038
relation of histamine release to estrogen in, 1028
Nitrogen, plasma amino, effect of cortisol on, 561
Norepinephrine depletors and GH release, 471
Norethynodrel combined with mestranol, effects on fetus and newborn rats, 447

Obesity, GTG-induced, and thyroid activity, 387
2α-OH and LH secretion, 901
Organ culture, direct hormone action in, 1083
Ovariectomy, in pregnant rats, induction of lactation by, 1043
Ovulation, blockade of, time factor in, 790
induction of, by LRF, 515
inhibition and facilitation of, 735
provoked, or delayed pseudopregnancy in barbiturate-blocked rats, 145
Oxytocin, antidiuretic responses of rats with hereditary diabetes insipidus to, 207

Parathyroid, collagenolysis induced by, 815
extract of, effect on nicotinamide adenine dinucleotide cofactor levels in kidney mitochondria, 542
secretion of, influence on bone RNA, 552
Penicillin and isolated rat liver, 247
Pertechnetate, thyroid metabolism of, 337
Phenobarbital, and cortisol hydroxylation, 351
effect of, on 17β-estradiol, 135
Phentolamine in prevention of carbon tetrachloride-induced gonadal inhibition, 983
Phospholipid(s), distribution of tissue, in adrenalectomized rats, 765
rat testicular, hormonal control of, 231
PIF, dose-response relationship to prolactin release, 1170
Pituitaries, ectopic, hypothalamus and, 725
Pituitary gland(s), in development of fetal thymus, 979
ectopic, ACTH secretion by, 962
stability of TSH in, after death, 302
Pituitary hormone immunology, 435
Pituitary-adrenal system, adrenergic and cholinergic structures in control of, 69
Plasma, GRF in, 77
human, ACTH stability in, 599
PMS, changes in LH and FSH after, 82
PMSG, isolation of, 699
Potassium influx into rat erythrocytes, lack of aldosterone effect on, 375
Pregnancy, adrenocorticoid maintenance of, 829
aspartate transcarbamylase in, 505
early, androstenedione effects on, 1152
interruption of, following anti-ovine LH, 1127
Progesterone, blood and tissue, in the pig, 240
depot 6α-methyl-17-acetoxy, maintenance of delayed nidation, 218
ovulation following treatment with, 735

Progestogen(s), and brain thresholds, 857
regulation of uterine metabolism by, 453
Prolactin, action of, on mammary tissue in organ culture, 1083
bio-assay of, 641
biosynthesis of growth hormone and, 1111
exogenous, disappearance rate of, 195
rat, internally labeled, 324
release of, dose-response relationship to PIF of, 1170
lack of inhibition ability of LH-RF, 972
stimuli effect on, 840
Protein, adrenal, inhibition of synthesis of, 883
and adrenal RNA, 521
synthesis of, GH stimulation of, in liver mitochondria, 772
Proteinuria, mammotropic hormone and, 305
Pseudopregnancy, delayed, induced by hypothalamic stimulation, 155
or provoked ovulation in barbiturate-blocked rats, 145
Puromycin, effect of, on ACTH insulin release, 656
on cartilage sulfation, 999
Putrescine, estrogen effect on uptake of, by rat uterus, 357

Renin, effects of, in dogs, 703
RNA, adrenal, and protein, 521
bone, parathyroid influences on, 552
synthesis of adrenal, effects of ACTH on, 872

Selenomethionine, thyroparathyroid uptake of, 467
Serotonin, thyroid, TSH and blood flow, 689
Sex behavior, neural activation of male, 754
Sodium restriction, dietary, influence on aldosterone production of, 221
Steroid(s), action of, on mammary tissue in organ culture, 1083
binding site of, characteristics of, 784
effects of, in female fetuses, 255
hemolysin response of rats treated neonatally with, 762
inhibition of adrenal protein synthesis by, 883
Steroidogenesis, mouse adrenal, 576
Stress, acceleration, liver glycogenesis in, 707
adrenal cortical response to, 1177
chronic and acute, effects on TSH secretion of, 953
Suckling effects on hypothalamus-pituitary, 603
Sulfatase, hepatic steroid, developmental pattern of activity of, 1120
Sulfation, cartilage, inhibition of, 999

T_4, secretion of, by fetal thyroid gland, 545
Tannic acid, recovery of added gonadotrophins by extraction by, 378
Testes, monkey, biosynthesis of testosterone by, 499
prepubertal, variations in collagen in, 1163
Testosterone, biosynthesis of, by monkey testes, 499
in blood of rat, 38
^{3}H-testosterone uptake in guinea pigs, 490
Thiouracil, thyroid tumors induced by, 629
Thymus, fetal, pituitary and adrenal glands in development of, 979
Thyrocalcitonin, blood pressure response associated with certain preparations of, 778
inhibition of bone resorption by, 61, 539
Thyroid, activity of, GTG-induced obesity and, 387
rebound of, after discontinuation of antithyroid drugs, 52
Thyroid cell(s), histochemistry of, in tissue culture, 797
protein synthesis of, TSH and, 1101
Thyroid function and brain AChE and ChE, 1069
Thyroid gland, fetal, thyroid hormone secretion by, 545
liver extracts in inhibition of thyroidal uptake of ^{131}I by, 417
metabolism of ^{99m}pertechnetate by, 337
Thyroid hormones, and collagen, 1051
and D,L-epinephrine, 808
Thyroid lobes, incubated, iodide kinetics in, 1020
Thyroid tumors induced by thiouracil, 629
Thyroiditis, chronic, in Buffalo rats with carbon tetrachloride-induced cirrhosis, 361
Thyroparathyroid, uptake of selenomethionine by, 467
Thyroparathyroidectomy, effect of, in hypercalcemia associated with malignancy, 404
Thyrotropin, enhanced response to, by infusion rather than injection, 359
Thyroxine, in antithyroid antiserum, 1097
formation of extrathyroidal, 915
iodine-free analog of, 1143
metabolism of, methylcholanthrene and, 896
Tranylcypromine and adrenal secretion, 510
Triiodothyronine, effects on water and electrolyte excretion, 1185
TSH, crystallization of bovine, 203
early effects of, 957
after hypothalamic deafferentation, 1075
pituitary, after death, 302
secretion of, chronic and acute stress effects on, 953
and thyroid cell protein synthesis, 1101
thyroid serotonin and blood flow, 689
Tumor(s), mammosomatotropic, hyproteinemia and proteinuria in rats with, 305
pituitary, hypothalamic action on, 131
thyroid, thiouracil-induced, 629
transplantable pituitary, feedback control of ACTH secretion in rats bearing, 345

Uterus, estrogen antagonist action on, 748
metabolism of, 453
transplantation of, luteolysis affected by, 477

Vagus nerve, stimulation of, effects on insulin secretion, 530
l-Valine, hypercalcemic effect in parathyroidectomized rats of, 200
Vasopressin, antidiuretic responses of rats with hereditary diabetes insipidus to, 207
specific adsorbent for, 527
Vitamin A during postnatal development, 910
Vitamin D, effect of steroid hormones on rats depleted of, 89

Water exchange, adrenal cortex and, 835

X-irradiation, lethal, in guinea pigs, 947

ENDOCRINOLOGY

VOLUME 80

JANUARY-JUNE, 1967

SUBJECT INDEX, VOLUME 81

Acids, fatty, rat adrenal, 179
ACTH, adrenocortical responsiveness to, 1147
  content of, after interruption of neural afferents to medial basal hypothalamus, 921
  effect of, on insulin secretion, 925
  induction of diabetes with, 527
  insulin secretion mediated by, 558
  release of, hypothalamic lesions and, 941
  secretion of, puromycin studies on inhibition of, 1415
Actinomycin D, effects of, on hexose transport and blood flow in the uterus, 205
  on thyroidal iodide transport, 893
ADH release, peripheral receptors and, 1140
Adrenal(s), function of, estrogen influence on, 29
  and 17α-methyltestosterone, 1278
Adrenal cortex, blood flow to, 403
Adrenal gland(s), adrenal insufficiency in dogs after removal of, 406
  metabolism of fatty acids in, 179
Adrenal tissue, steroid synthesis in embryonic and fetal, 716
Adrenocortical activity in neonatal rat following handling, 1047
AIB uptake, pituitary, T_4 and, 101
Aldosterone production, effect of rubidium on, 913
Amino acid(s), in composition of bovine, ovine and human LH, 45
  steroid effects on cultured cell uptake of, 454
  transport of, into bone cells, PTE effects on, 553
  T_3 effect on, 1362, 1372
Aminophylline effect on ACTH-mediated insulin secretion, 558
3′,5′-AMP effect on amphibian melanophores, 283
Amphotericin B effect on thyroidal iodide, 467
Androgen, plasma, effects of age and season on levels of, 1203
  treatment with, changes in LH and FSH levels after cessation of, 930
Androstenedione, effects on pregnancy of, 1091
Anemia and lipidemia, 1007
Anesthesia by progestins, estrous behavior and, 369
Angiotensin amide, effect of, 1301
Angiotensin II, adrenocortical responsiveness to, 1147
Anti-androgen inhibition of stimulation of four androgenic compounds, 1431
Antithyrotoxic substances, dietary, action of, 49
Autoradiography determination in equilibrium labeling, 1074
Avidin, structure-function relationships of various steroids relative to induction of, 677
AY-9944 and rat adrenal function, 976

Benzo [d, e] testosterone acetate, 390
BGH, induction of diabetes with, 527
Blood, flow of, to adrenal cortex and medulla, 403
  flow rate of, uterine transport and, 205
  hypophysial stalk, collection of, 1182
  peripheral, FSH-RF in, 1226
Blood vessels, endometrial, effects of relaxin on endothelium of, 375
Bone, hyperthyroidism and, 735
  solubility of, thyrocalcitonin effect on, 398
Calcium, serum, theophylline effects on, 139
Calorigenesis and goitrogens, 1018
Carbohydrate(s), in composition of bovine, ovine and human LH, 45
  effects of, on oxygen consumption of pancreatic islets, 105
Cells, cultured, steroid effects on amino acid uptake of, 454
  interstitial, steroid synthesis by, 440
Chlorpromazine, CRF assays in rats treated with, 235
  induction of ovulation in rats blocked by, 877
Cholesterol, adrenal, effect of adrenocorticotrophic hormone on accumulation of, 1185
  blood, endocrine effects on, 340
  changes in rat ovarian, 54
Cholesterol-^{3}H, ovarian steroidogenesis from, 19
Chow, laboratory, growth in thyroparathyroidectomized rats fed with, 673
Clomiphene, effect of FSH and TP on spermatogenesis in rats treated with, 965
Colloid, diffusion of thyroglobulin in, 1086
Constriction, aortic, effect on renin secretion, 1413
Corticosteroid, ultrastructure of fibroblasts following treatment of wounds with, 461
Corticosterone, effect of, on mammary gland growth in pregnancy, 658
  production, effect of rubidium on, 913
Cortisol, effects of, on liver glycogen synthesis, 486
  on thymic RNA polymerase, 861
CRF assays, 235
Cu(II) and thyroxine-like compounds, 291
Cyanide stimulation of 11β-hydroxylation, 605
Cyproterone acetate, prevention of persistent estrus by, 350

Dehydroepiandrosterone from boar testis, 34
Dehydrogenase, lactate, in obese-hyperglycemic mice, 125
Dexamethasone, CRF assays in rats treated with, 235
  effect of, on response to GH-RF, 1410
Diabetes induction with BGH and ACTH, 527
DNA, synthesis of, in radiated and stimulated thyroid gland, 1

Eggs, fertilization and development of, 1251
Endocrine Society, presidential address of, 649
Endometrium, human, metabolism of 17β-estradiol and estrone by, 167
  human proliferative, progesterone metabolism in, 729
Enovid effects in rats, 826
Enucleation, adrenal, Na retention after, 1331
Enzyme(s), synthesis of, cofactor induced, 791
  thyroidal, TSH and, 708
Epinephrine effect on gonadotropin release in underfed rats, 535
Equilibrium labeling, autoradiography in, 1074
  kinetics of, 1063
Erythropoiesis, prednisolone effects on, 363
Estradiol, effects of, on hexose transport and blood flow in the uterus, 205
Estrogen(s), adrenal and pituitary relation to hypocholesterolemic effect of, 340

Estrogen(s)
influence of, on pituitary and adrenal, 29
inhibition by, of GH-induced growth in hypophysectomized rats, 1428
uterine transformation of, 167
Estrone, effect of, in pseudopregnant, hypophysectomized rabbits, 1435
Estrous cycle of the rat, serum TSH during, 121
Estrus, prevention of persistent, 350

Fetus, effect of insulin on, 1419
TSH levels in, 132
FFA, concentration of, in Houssay dogs after GH, 395
plasma, in chickens, insulin and, 1001
Forebrain, medial, bundle lesions in, 509
FSH, changes in pituitary and plasma levels of, after cessation of androgens, 930
effect of, on spermatogenesis, 965
from HMG, immunological studies of, 1241
pituitary, in infant rat, 1379
rat pituitary, during estrous cycle, 1261
releasing factor of, *in vitro* studies on, 1193
specificity in assays of, 1179
and testicular protein biosynthesis, 1151
FSH-RF, in peripheral blood, 1226
porcine, 882

Gel filtration of thyroid iodoproteins, 1118
Genital system, ontogenesis of 3β-HSD and, 565
GH, bovine, and prolactin, 1338
and fatty acid utilization, 1306
FFA concentration in Houssay dogs after, 395
and glucose utilization, 1099
in the rat pituitary gland, 195
GHRF, absence of, in rat posterior pituitary lobe, 1165
effect of CNS-depressants, dexamethasone and GH on response to, 1410
hypothalamic, hypoglycemia and, 333
Glucose, blood, response to insulin and plasma FFA, 1001
effects of, on liver glycogen synthesis, 486
utilization of, GH and, 1099
Glycogen, liver, synthesis of, 486
Goiter, colloid, pathogenesis of, 623
Goitrin analogues, effect on rat thyroid gland, 88
Goitrogen(s), and calorigenesis, 1018
mechanism of inhibition of compensatory ovarian hypertrophy by, 771
prolactin as a, 748
Gonadotropin(s), bovine pregnancy, activity of, 61
pituitary, in reserpinized rats, 357
preoptico-tuberal pathway controlling ovulatory release of, 1387
release of, effect of constant light or epinephrine on, 535
response of intraocular ovarian isografts to, 1311
response of rat ovarian cholesterol to, 54
in vitro, and ovarian metabolism, 93
GPD, liver, response to thiouracil, 277

Hexokinases, rat adaptive, 1397
Histamine, effect of hypothalamic lesions on pituitary-adrenocortical responses to, 941
and lymphoid tissue, 1357
HMG, immunological studies of FSH from, 1241
Hormone(s), altering TT rhythmicity, 811
anterior pituitary, response of rat ovarian cholesterol to, 54
deficiency of, NAD biosynthesis and, 779
hypothalamic and pituitary, Enovid effects on, 826
in immobilization osteoporosis, 1053
parathyroid, bio-assay for, 67
and phosphatase activity, 1125
11β-Hydroxylation, cyanide stimulation of, 605
Hypercalcemia, thyrocalcitonin and, 599
Hyperlipidemia and anemia, 1007
"Hyperpseudopseudopregnancy," OAAD in, 1104
Hypertension, DOCA, neurohypophysis and, 1231
Hyperthyroidism and bone, 735
Hypertrophy, compensatory ovarian, goitrogen inhibition of, 771
Hypoglycemia and hypothalamic GHRF, 333
Hypophysectomy, transauricular, stereotaxic approach to, 1177
Hypothalamus, extracts of, control of MSH by, 819
TSH release by, 113
medial basal, content of ACTH after interruption of neural afferents to, 921
norephinephrine levels in, during estrous cycle, 1405
stimulation of, elevation of TSH release during, 173
Hysterectomy, half-life of endogenous PMS after, 927

^{125}I, kinetics of equilibrium labeling with, 1063
and ^{127}I, distribution of, during equilibrium labeling, determined by autoradiography, 1074
^{131}I, thyroidal, iodide effect on release of, 643
^{131}I-iodothyronines, digestion of labeled thyroid tissue with maximum recovery of, 319
Insulin, antibodies of, neutralization of, 226
antilipolytic action of, 521
effect of, on growth and biochemical composition of rat fetus, 1419
on liver glycogen synthesis, 486
on protein synthesis, 386
and plasma FFA in chickens, 1001
release of, ACTH-mediated, 558
secretion of, effect of ACTH on, 925
effects of neurohypophysial hormones on, 783
Insulin-^{125}I passage into kidney cells, 475
Iodide, effect of large doses of, on peripheral metabolism of thyroxine, 1439
effect on thyroidal ^{131}I release, 643
effect of thyrotropin on clearance of, 981
thyroidal, effect of Amphotericin B on, 467
thyroidal transport of, actinomycin D effect on, 893
and thyrotropin *in vivo*, 871
Iodoproteins, thyroid, gel filtration of, 1118
Isografts, ovarian, in female rats, 1311
Isozymes, hexokinase, rat adaptive, 1397

Kidney, cells of, insulin-^{125}I passage into, 475

Lactation, effect of thyroactive materials on, in rats, 14
LATS, response to, in complement-deficient mouse, 671
LH, in castrated, testosterone pretreated male and female rats, 1173

changes in pituitary and plasma levels of, after cessation of androgens, 930
composition of bovine, ovine and human, 45
cross-reactivity of, 591
effect of suprachiasmatic lesions on regulation of, 666
effects of, on cholesterol conversion to progestins, 19
on progesterone concentration, 573
immunological studies of, 1033
negative effect of, in pseudopregnant, hypophysectomized rabbits, 1435
synthesis and release of, LRF and, 835
Light, constant, effect on gonadotropin release in underfed rats, 535
pituitary-ovarian function in rats exposed to, 497
responses to, medial forebrain bundle lesion effects on, 509
Lipolysis, induced, effect of sulfonylureas on, 71
inhibitory action of insulin on, 521
LRF, porcine, 77
and synthesis and release of LH, 835
LtH activity and ectopic pituitary, 542
Luteotropin in pseudopregnant, hypophysectomized rabbits, 1435

Magnesium metabolism, effects of vitamin D on, 849
Medulla, blood flow to, 403
Melanophores, effect of 3′,5′-AMP on, 283
Methimazole, effect of, on amino acid utilization, 1169
on oxygen consumption of hypothyroid rats, 1018
Methopyrapone, effect of hypothalamic lesions on pituitary-adrenocortical responses to, 941
17α-Methyltestosterone, adrenals and, 1278
Milk secretion, PIF reduction of, 1021
Morphine, CRF assays in rats treated with, 235
MSH, hypothalamic control of, 819
MtT rats, adrenal metabolism in, 246
Myometrium, human, metabolism of 17β-estradiol and estrone by, 167

Na retention after adrenal enucleation, 1331
NAD biosynthesis and hormone deficiency, 779
Nembutal, CRF assays in rats treated with, 235
Neonate, TSH levels in, 132
Neurohypophysis, capacity of, to release vasopressin, 755
and DOCA hypertension, 1231
on insulin secretion, 783
Norephinephrine levels in hypothalamus during estrous cycle, 1405
Nucleotides, pyridine, in thyroid gland, 1291

OAAD in "hyperpseudopseudopregnancy," 1104
Ontogenesis of 3β-HSD and genital system, 565
Operation, free thyroxine after, 435
Osteoporosis, effect of calcium on cortisone-induced 152
immobilization, hormones in, 1053
Ovary(-ies), bovine, luteotropic effects of prolactin in, 186
compensatory function of, during pregnancy, 430
effects of gonadotrophins *in vitro* on metabolism of, 93
innervation of, 1132
Oviduct, immature chick, estrogen-induced morphologic changes in monolayer cultures of, 1422
Ovulation, in artificially inseminated rabbits induced by LH, HCG or cupric sulfate, 400
in CPZ-blocked rats, 877
ultrastructure of apex of rabbit graafian follicle during, 267
Oxygen consumption of pancreatic islets, effects of carbohydrates on, 105
Oxytocin, inhibitors of, 1267
reaction in sucklings induced by, 711
structural specificity of, 515

Pancreatic islets of mammals, 125
Parathyroid extract and thyroxine, 798
Parathyroid hormone, density gradient centrifugation of, 585
porcine, 261
thyrocalcitonin activity in hypercalcemia produced by, 599
PBI, response of, to thiouracil, 277
serum, thyroid-blocking anions and, 1285
Perchlorate effects on thyroxine metabolism, 1285
Pertechnetate, effect of thyrotropin on clearance of, 981
Phosphatase activity, hormones and, 1125
Phosphate, alkaline, specificity of prednisolone effect in cell lines with, 251
PIF, reduction of milk secretion by, 1021
Pituitary, function of, estrogen influence on, 29
Pituitary gland, ectopic, effect on LtH activity, 542
GH in, 195
Placenta(e), bovine, gonadotropic substance in, 61
transformations of C_{21} steroids by, 1349
PMS, endogenous, half-life of, after hysterectomy, 927
Prednisolone, effects of, on erythroporesis, 363
specificity of effect of, 251
Pregnancy, andostenedione effects on, 1091
compensatory ovarian function during, 430
effect of corticosterone on mammary gland growth during, 658
ovarian secretion of blood progestins during, 617
Preoptico-tuberal pathway, 1387
Presidential address, 649
Progesterone, action of, in male ring doves, 39
effects of, on fertilization and development of eggs, 1251
4-^{14}C-labeled, metabolism of, by rat adrenal glands, 246
luteal, synthesis of, 573
metabolism of, in human proliferative endometrium, 729
plasma, in monkey menstrual cycle, 1161
synthesis of, effect of pituitary hormones on, 1407
Progestins, blood, in rats, 617
estrous behavior and anesthesia by, 369
Prolactin, as a goitrogen, 748
and bovine GH, 1338
luteotropic effects of, 186
ovine pituitary, radioimmunoassay for, 1041
pituitary, suckling and release of, 449
Propylthiouracil, effect of, on oxygen consumption of hypothyroid rats, 1018
Protein(s), biosynthesis of, FSH and, 1151
synthesis of, insulin effects on, 386
T_4 and, 1029

Pseudopregnancy, ovarian secretion of blood progestins during, 617
PTE effects on bone amino acid transport, 553
Puromycin, effects of, on hexose transport and blood flow in the uterus, 205
studies with, of ACTH secretion, 1415
Pyrophosphate phosphohydrolase, mammary, 899

Relaxin and endometrial blood vessels, 375
Renin, and adrenal steroids of the opossum, 633
secretion of, effect of aortic constriction on, 1413
Reproduction, function of, effect of LL on, 497
Reserpine effects on FSH and LH, 357
Ring doves, progesterone action in male, 39
RNA polymerase, thymic, cortisol effect on, 861
RNA synthesis, effect of estrogen and androgen on, 409
Rubidium effect on aldosterone and corticosterone production, 913
Russell, Jane A., in memoriam, 689

Salivary secretion stimulation by factor from hypothalamic tissue, 803
Serum, human, thyroglobulin in, 421
Sexual maturation, female, effect of presence of male on, 345
Skin, isolated frog, effect of angiotensin amide on, 1301
Spermatogenesis, effect of FSH and TP on, 965
Steroid(s), adrenal, and renin in opossum, 633
C_{12}, transformations of, by placentae, 1349
new synthetic, 390
production of, by superfusion of endocrine tissue, 1213
synthesis of, in embryonic and fetal adrenal tissue, 716
by interstitial cells, 440
various, structure-function relationships to induction of avidin, 677
Steroid hormones, metabolism of, in adrenal cortex tumor cultures, 693
Steroid sulfatase activity, hepatic, genetic differences in, 675
Steroidogenesis, by homogenates of adrenocortical tissue, 904
ovarian, from cholesterol-^{3}H, 19
Suckling effects on pituitary prolactin, 449
Sucklings, oxytocin-induced reaction in, 711
Sulfonylureas, effects on fat cells, 71
Superfusion, rat adrenal, analysis of, 1213

T_3 effect on transport, 1362, 1372
T_3-T_4 and mammary growth and lactation, 14
T_4, interaction between Cu (II) and compounds related to, 291
and pituitary AIB uptake, 101
and pituitary protein synthesis, 1029
Testis, boar, dehydroepiandrosterone secretion from, 34
Theophylline effects on serum calcium, 139
Thiouracil, liver GPD and PBI response to, 277
Thyrocalcitonin, chronic deficiency of, calcium homeostasis in, 1297
human, 993
and hypercalcemia, 599
improved method for biological assay of, 610
parameters of bio-assay of, 854
serum calcium and phosphorus responses to, 661
stability of, 306
thyroidal, 256
in vivo effect on bone solubility, 398
Thyroglobulin, diffusion of, in colloid, 1086
in serum, 421
Thyroid, autoimmunity of, in hypothyroidism, 1
perfusion of, 946
stimulating factor in cancer tissue, 610
Thyroid gland, goitrin analogues on, 88
proteolytic activity of, 1319
pyridine nucleotides in, 1291
radiated and stimulated, DNA synthesis in, 1
Thyroid hormone(s), effect of TP on secretion rate of, 656
interactions of TRF and, 741
Thyroid tissue, digestion of labeled, 319
Thyroidectomy, effect on amino acid uptake by pituitary gland, 101
and gonadal recrudescence in Lal Munia, 915
Thyrotropin, effect of, on clearance of pertechnetate and iodide, 981
in vivo, lack of iodide effect on, 871
Thyroxine, action of dietary substances in peripheral activity of, 49
effect of large doses of iodide on peripheral metabolism of, 1439
free, postoperatively, 435
metabolism of, effects of anions on, 1285
and parathyroid extract, 798
Tissue(s), adrenocortical, steroidogenesis by homogenates of, 904
bovine serum and placental, gonadotropic substance in, 61
extracts of, insulin-like activity in, 213
hypothalamic, salivary secretion stimulation by factor from, 803
lymphoid, histamine and stress responses of, 1357
Toluene effect on bovine GH and prolactin, 1338
TP, effect of, on spermatogenesis, 965
on thyroid hormone secretion rate, 656
TRF, depletion of TSH by, 918
interactions of thyroid hormones and, 741
TSH, depletion of, by TRF, 918
levels of, in mother, fetus and neonate, 132
rat, immunoassay of, 145
release of, by crude hypothalamic extracts, 113
hypothalamic stimulation and, 173
serum, during rat estrous cycle, 121
and thyroidal enzymes, 708
yield of, pituitary collection and, 299
TT rhythmicity, hormones altering, 811
Tumor, adrenal cortex, metabolism of steroid hormones in cultures of, 693
pituitary, metabolism of 4-^{14}C-labeled progesterone by adrenal glands from rats with, 246

Uterus, hexose transport and blood flow in, 205
NADP oxidoreductase in, 791

Vasopressin, capacity of neurohypophysis to release, 755
role of peripheral receptors in increased release of, 1140
Vitamin D, effects of, on Mg metabolism, 849
thyrocalcitonin activity in hypercalcemia produced by, 599

Wounds, ultrastructure of fibroblasts of, 461

ENDOCRINOLOGY

VOLUME 81

JULY-DECEMBER, 1967

EDITOR-IN-CHIEF: FREDERICK G. HOFMANN

ASSOCIATE EDITORS: WILBUR H. SAWYER, DONALD F. TAPLEY

CONTENTS OF VOLUME 81

No. 1, July 1967

DOBYNS, B. W., A. E. RUDD, AND M. A. SANDERS: Desoxyribonucleic Acid (DNA) Synthesis in the Radiated and Stimulated Thyroid Gland 1

SCHMIDT, G. H., AND W. H. MOGER: Effect of Thyroactive Materials Upon Mammary Gland Growth and Lactation in Rats 14

MAJOR, P. W., D. T. ARMSTRONG, AND R. O. GREEP: Effects of Luteinizing Hormone *in Vivo* and *in Vitro* on Cholesterol Conversion to Progestins in Rat Corpus Luteum Tissue 19

FONZO, D., R. B. MIMS, AND D. H. NELSON: Estrogen Influence on Pituitary and Adrenal Function in the Rat 29

BAULIEU, E. E., I. FABRE-JUNG, AND L. G. HUIS IN'T VELD: Dehydroepiandrosterone Sulfate: A Secretory Product of the Boar Testis 34

ERICKSON, C. J., R. H. BRUDER, B. R. KOMISARUK, AND D. S. LEHRMAN: Selective Inhibition by Progesterone of Androgen-Induced Behavior in Male Ring Doves (*Streptopelia risoria*) 39

KATHAN, R. H., L. E. REICHERT, JR., AND R. J. RYAN: Comparison of the Carbohydrate and Amino Acid Composition of Bovine, Ovine and Human Luteinizing Hormone 45

RUEGAMER, W. R., B. J. WAGNER, N. BARSTOW, AND E. E. KERAN: Mechanism by Which Certain Dietary Substances Interfere with the Peripheral Activity of Thyroxine 49

HERBST, A. L.: Response of Rat Ovarian Cholesterol to Gonadotropins and Anterior Pituitary Hormones 54

LUNNEN, J. E., AND W. C. FOOTE: Gonadotropic Activity in Bovine Serum and Placental Tissue 61

BETHUNE, J. E., H. INOUE, AND R. A. TURPIN: A Bio-assay for Parathyroid Hormone in Mice 67

BROWN, J. D., AND D. B. STONE: Antilipolytic Effects of Sulfonylurea Drugs on Induced Lipolysis in Isolated Fat Cells of the Rat 71

SCHALLY, A. V., C. Y. BOWERS, W. F. WHITE, AND A. I. COHEN: Purification and *in Vivo* and *in Vitro* Studies with Porcine Luteinizing Hormone-Releasing Factor (LRF) 77

FAIMAN, C., R. J. RYAN, AND H. J. EICHEL: Effect of Goitrin Analogues and Related Compounds on the Rat Thyroid Gland 88

HAMBERGER, L. A., AND K. E. B. AHRÉN: Effects of Gonadotrophins *in Vitro* on Glucose Uptake and Lactic Acid Production of Ovaries from Prepubertal and Hypophysectomized Rats 93

TONOUE, T., AND K. YAMAMOTO: Stimulation by Thyroidectomy and Suppression by Thyroxine Administration of Amino Acid Uptake by the Rat Pituitary Gland 101

HELLERSTRÖM, C.: Effects of Carbohydrates on the Oxygen Consumption of Isolated Pancreatic Islets of Mice 105

AVERILL, R. L. W., AND T. H. KENNEDY: Elevation of Thyrotropin Release by Intrapituitary Infusion of Crude Hypothalamic Extracts 113

BOCCABELLA, A. V., AND E. A. ALGER: Quantitative Variations in Serum Thyrotropin Levels During the Estrous Cycle of the Rat 121

HELLMAN, B., AND I.-B. TÄLJEDAL: Quantitative Studies on Isolated Pancreatic Islets of Mammals. Activity and Heterogeneity of Lactate Dehydrogenase in Obese-Hyperglycemic Mice 125

D'ANGELO, S. A.: Pituitary-Thyroid Interrelations in Maternal, Fetal and Neonatal Guinea Pigs 132

WELLS, H., AND W. LLOYD: Effects of Theophylline on the Serum Calcium of Rats After Parathyroidectomy and Administration of Parathyroid Hormone 139

WILBER, J. F., AND R. D. UTIGER: Immunoassay Studies of Thyrotropin in Rat Pituitary Glands and Serum 145

NOTES AND COMMENTS

ADAMS, P., AND J. JOWSEY: Effect of Calcium on Cortisone-Induced Osteoporosis: A Preliminary Communication 152

No. 2, August 1967

SWEAT, M. L., M. J. BRYSON, AND R. B. YOUNG: Metabolism of 17β-Estradiol and Estrone by Human Proliferative Endometrium and Myometrium 167

AVERILL, R. L. W., AND D. F. SALAMAN: Elevation of Plasma Thyrotropin (TSH) During Electrical Stimulation in the Rabbit Hypothalamus 173

MACHO, L., AND M. SAFFRAN: Metabolism of Fatty Acids in the Rat Adrenal Gland 179

BARTOSIK, D., E. B. ROMANOFF, D. J. WATSON, AND E. SCRICCO: Luteotropic Effects of Prolactin in the Bovine Ovary 186

BIRGE, C. A., G. T. PEAKE, I. K. MARIZ, AND W. H. DAUGHADAY: Radioimmunoassayable Growth Hormone in the Rat Pituitary Gland: Effects of Age, Sex and Hormonal State 195

SPAZIANI, E., AND R. P. SUDDICK: Hexose Transport and Blood Flow Rate in the Uterus: Effects of Estradiol, Puromycin and Actinomycin D 205

SOLOMON, S. S., P. L. POFFENBARGER, D. K. HEPP, L. F. FENSTER, J. W. ENSINCK, AND R. H. WILLIAMS: Quantitation and Partial Characterization of Nonsuppressible Insulin-like Activity in Serum and Tissue Extracts of the Rat 213

WRIGHT, P. H., W. J. MALAISSE, AND I. J. REYNOLDS: Assay of Partially Neutralized Guinea Pig Anti-insulin Serum 226

ARIMURA, A., T. SAITO, AND A. V. SCHALLY: Assays for Corticotropin-Releasing Factor (CRF) Using Rats Treated with Morphine, Chlorpromazine, Dexamethasone and Nembutal 235

FRANCOIS, D., R. W. BATES, AND D. F. JOHNSON: *In Vitro* Metabolism of 4-^{14}C-Labeled Progesterone by Adrenal Glands from Rats with a Transplantable Mammotropic Pituitary Tumor 246

MELNYKOVYCH, G., AND C. F. BISHOP: Specificity of Prednisolone Effect on Cell Volume, RNA and Protein in Cell Lines with Inducible and Noninducible Alkaline Phosphatase 251

YASUMURA, S., M. BURK, A. CHAUSMER, R. MITTLEMAN, AND S. WALLACH: Thyroidal Content of Thyrocalcitonin in Hypothyroid and Hyperthyroid Rats 256

LITTLEDIKE, E. T., AND C. D. HAWKER: Extraction, Purification and Partial Characterization of Porcine Parathyroid Hormone 261

ESPEY, L. L.: Ultrastructure of the Apex of the Rabbit Graafian Follicle During the Ovulatory Process 267

RUEGAMER, W. R., J. S. WARREN, M. BARSTOW, AND W. BECK: Effects of Thiouracil on Rat Liver α-Glycerophosphate Dehydrogenase and Serum PBI Responses to L-Thyroxine 277

NOVALES, R. R., AND W. J. DAVIS: Melanin-Dispersing Effect of Adenosine 3',5'-Monophosphate on Amphibian Melanophores 283

CASH, W. D., H. E. CARLSON, S. W. COX, E. A. EKONG, J. S. EPSTEIN, S. G. GABBE, AND R. M. SIGEL: Interaction Between Cu(II) and Thyroxine-like Compounds in Mitochondrial Swelling Studies 291

LEPP, A., AND L. OLINER: Dependence of Hormonal Yield on the Collection Method for Human Pituitary Glands. I. Thyrotropin 299

TASHJIAN, A. H., JR., AND D. R. WARNOCK: Stability of the Hypocalcemic Activity of Porcine Thyrocalcitonin 306

INOUE, K., AND A. TAUROG: Digestion of ^{131}I-Labeled Thyroid Tissue with Maximum Recovery of ^{131}I-Iodothyronines 319

KATZ, S. H., A. P. S. DHARIWAL, AND S. M. MCCANN: Effect of Hypoglycemia on the Content of Pituitary Growth Hormone (GH) and Hypothalamic Growth Hormone-Releasing Factor (GHRF) in the Rat 333

STEINBERG, M., S. TOLKSDORF, AND A. S. GORDON: Relation of the Adrenal and Pituitary to the Hypocholesterolemic Effect of Estrogen in Rats 340

VANDENBERGH, J. G.: Effect of the Presence of a Male on the Sexual Maturation of Female Mice 345

WOLLMAN, A. L., AND J. B. HAMILTON: Prevention by Cyproterone Acetate of Androgenic, But Not of Gonadotrophic, Elicitation of Persistent Estrus in Rats 350

LABHSETWAR, A. P.: Differential Effects of Reserpine on Pituitary Luteinizing Hormone and Follicle-Stimulating Hormone Levels in the Female Rat 357

GORDON, A. S., E. A. MIRAND, AND E. D. ZANJANI: Mechanisms of Prednisolone Action in Erythropoiesis 363

MEYERSON, B. J.: Relationship Between the Anesthetic and Gestagenic Action and Estrous Behavior-Inducing Activity of Different Progestins 369

HISAW, F. L., F. L. HISAW, JR., AND A. B. DAWSON: Effects of Relaxin on the Endothelium of Endometrial Blood Vessels in Monkeys (*Macaca mulatta*) 375

NOTES AND COMMENTS

MILLER, L. V., AND P. M. BEIGELMAN: Effects of Varying Concentrations of Insulin Upon Protein Synthesis in Isolated Fat Cells 386

BRIZIARELLI, G.: Benzo[d, e]testosterone Acetate: A New Synthetic Steroid with Dissociation of Biological Activities 390

SIREK, O. V., A. SIREK, K. PRZYBYLSKA, H. DOOLAN, AND A. NIKI: Plasma Free Fatty Acid Concentrations in Houssay Dogs Following a Single Injection of Growth Hormone 395

KHAN, B. T., F. C. EWALD, AND M. O. TACHDJIAN: *In Vivo* Effect of Thyrocalcitonin on Bone Solubility 398

STAPLES, R. E., AND G. BIALY: Rabbit Zygote Transport and Development Following Various Methods of Ovulation Induction 400

KRAMER, R. J., AND L. A. SAPIRSTEIN: Blood Flow to the Adrenal Cortex and Medulla 403

SWINGLE, W. W., AND A. J. SWINGLE: Terminal Insufficiency in Adrenalectomized Dogs Maintained for Three Years on Substitution Therapy and the Apparent Absence of Accessory Cortical Tissue in This Species 406

BARTON, R. W., AND S. LIAO: A Similarity in the Effect of Estrogen and Androgen on the Synthesis of Ribonucleic Acid in the Cell Nuclei of Gonadohormone-Sensitive Tissues 409

No. 3, September 1967

ROITT, I. M., AND G. TORRIGIANI: Identification and Estimation of Undegraded Thyroglobulin in Human Serum 421

RATHMACHER, R. P., L. L. ANDERSON, D. M. HENRICKS, AND R. M. MELAMPY: Compensatory Ovarian Function During Pregnancy in the Pig 430

HIABACH, H., AND J. M. MCKENZIE: Increased Free Thyroxine Postoperatively in the Rat 435

SHIN, S.-IL: Studies on Interstitial Cells in Tissue Culture: Steroid Biosynthesis in Monolayers of Mouse Testicular Interstitial Cells 440

GROSVENOR, C. E., F. MENA, AND D. A. SCHAEFGEN: Effect of Nonsuckling Interval and Duration of Suckling on the Suckling-Induced Fall in Pituitary Prolactin Concentration in the Rat 449

MOHRI, T.: Effects of Cortisol and 17-Nortestosterone on the Free Amino Acid Pools and Amino Acid Uptake of Cultured Cells 454

BERLINER, D. L., N. M. PANAGIOTIS, AND C. J. NABORS, JR.: Ultrastructure of Fibroblasts Following Topical Corticosteroid Treatment of Wounds 461

SHISHIBA, Y., AND D. H. SOLOMON: Effect of

Amphotericin B on Thyroidal Iodide Concentration 467
BECK, L. V., AND N. FEDYNSKYJ: Evidence from Combined Immunoassay and Radioautography Procedures That Intact Insulin-^{125}I Molecules Are Concentrated by Mouse Kidney Proximal Tubule Cells 475
FRIEDMANN, B., E. H. GOODMAN, JR., AND S. WEINHOUSE: Effects of Glucose Feeding, Cortisol and Insulin on Liver Glycogen Synthesis in the Rat 486
LAWTON, I. E., AND N. B. SCHWARTZ: Pituitary-Ovarian Function in Rats Exposed to Constant Light: A Chronological Study 497
WURTMAN, R. J., J. AXELROD, E. W. CHU, A. HELLER, AND R. Y. MOORE: Medial Forebrain Bundle Lesions: Blockade of Effects of Light on Rat Gonads and Pineal 509
GAITÁN, E., W. JUBÍZ, D. MEJÍA, AND J. E. GAITÁN: Structural Specificity of Oxytocin on the Mammary Myo-epithelial Cell of Women and Rabbits 515
CHLOUVERAKIS, C: Factors Affecting the Inhibitory Action of Insulin in Lipolysis in a Glucose-Free Medium 521
BATES, R. W., AND M. M. GARRISON: Quantitative Study of the Diabetogenic Action of ACTH and Growth Hormone in Partially Pancreatectomized Rats 527
PIACSEK, B. E., AND J. MEITES: Reinitiation of Gonadotropin Release in Underfed Rats by Constant Light or Epinephrine 535
CHOUDARY, J. B., AND G. S. GREENWALD: Effect of an Ectopic Pituitary Gland on Luteal Maintenance in the Hamster 542
